

EVERSOURCE RETRO COMMISSIONING

**SAVE UP TO 11% ON
YOUR UTILITY BILLS**

**\$43,000 AVERAGE
ANNUAL SAVINGS**

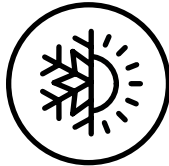

**PAYS FOR ITSELF IN
2-3 YEARS**

NO-COST SURVEY

**STAFF TRAINING
INCLUDED**

**GREATER OCCUPANT
COMFORT**

USE THIS PROGRAM TO RESOLVE COMMON ISSUES LIKE:

**BUILDING TEMPERATURE
COMPLAINTS**

RISING ENERGY COSTS

**OUTDATED AND POORLY
FUNCTIONING SYSTEMS**

Eversource's incentivized Retro-Commissioning, or RCx, program is designed to help facility owners and operators save energy and money. The RCx program identifies and implements low- and no-cost energy savings opportunities that help solve common issues in aging buildings. SES will work with your Building Automation Systems vendor for a seamless RCx process.

COMMON RCX CANDIDATES

- **K-12 Schools**
- **Higher Education Facilities**
- **Athletic Centers**
- **Large Office Buildings**
- **Manufacturing Facilities**
- **Retail Facilities**
- **Healthcare Facilities**

SOLUTIONS, LLC**

PROGRAM OVERVIEW

APPLY

Complete Eversource's simple application to see if your facility qualifies.

SURVEY

SES surveys your facility and interviews your staff to look for low- and no-cost energy-saving opportunities.

INVESTIGATION

SES investigates deeper, identifying the opportunities that make the most sense. A report outlining installation costs and savings is delivered to you and Eversource for approval.

IMPLEMENTATION

Contractors are brought on board to implement the selected energy-saving opportunities. SES oversees the process to ensure accuracy and efficiency.

TRAINING

SES trains your staff in the operation of the newly installed or adjusted systems and equipment.

VERIFICATION

The implemented energy savings improvements are verified and you receive your incentive payment.

CASE STUDY

NORWALK COMMUNITY COLLEGE

- 214,000 Square Feet
- 16 Energy Saving Opportunities Implemented
- \$89,000 Annual Energy Savings
- Paid For Itself In 2.2 Years

TESTIMONIALS

SES has the ability to truly listen and understand the key project stakeholders challenges and internal barriers and then develop energy saving measures that are practical and acceptable to both the administration and operational staff.

Chris Dupuis, CT State Colleges and Universities

SES has an excellent approach to problem solving and understands the priorities of the client. The energy consumption at our New Britain Courthouse was significantly reduced. SES provides practical solutions to reduce energy consumption while maintaining the comfort level of the building occupants.

Michael Rice, State of Connecticut Judicial Branch, Facilities Unit
